

AC Resistance Meter (400A)

MC Miller 400A AC resistance meter is a piece of essential equipment for all cathodic protection engineers. It can be used as AC resistance meter or soil resistivity measurement.

Features:

- Rugged, light-weight, hard plastic case
- Removal case lid
- Weather resistance without lid
- Resistance measurement are affected by DC stray interference signals

Specifications:

Measurement Range:	0.01 ohm to 1.1 Mega-ohm
Operating Temperature:	-30°C to 54 °C
Accuracy :	± 5%
Power:	Size C replaceable batteries
Weight:	3.175 kg
Dimensions:	30.5 x 25 x 12.5 cm
Operating Temperature:	-14°C to +80°C
