

**Betelguard Discrete Titanium Tubular Mesh Anode** is the most popular and longest track record discrete anodes for concrete structures. The cost-effective cathodic protection system can be designed for reinforced concrete beams, piles, columns, and walls using this anode.

### Material Specification

#### Dimensions

Anode Diameter:	25 mm or 30 mm
Anode Lengths:	Specify
Expanded Mesh Thickness:	1.3 mm
Diamond Dimensions:	2.5 mm x 4.6 mm

#### Substrate

Titanium, Grade 1 per ASTM B265

#### Titanium Tail

Width:	6.3 mm
Thickness:	0.63 mm
Length:	Specify
