

Dehn Isolating Spark Gap (EXFS KU)

Ex isolating spark gaps EXFS KU are used for conductive system parts which cannot be interconnected directly in hazardous zones. This includes, for example, pipe sections supplied with a cathodic corrosion protection system.

ATEX certified EXFS L spark gaps provide approved and tested safety according to harmonised European standards.

Ex isolating spark gap EXFS KU with connecting cables for aboveground and underground installation. For lightning equipotential bonding according to IEC 62305-4.
