

Cathodic Protection (CP)

Fat Fink Test Station

Fat FINK® cathodic protection test station is a very large capacity version of Catt's field proven Big Fink® design.

Made from high strength, maintenance free polycarbonate alloy, **Fat Fink®** is a rugged enclosure that protects all cathodic protection circuits and the sophisticated instruments used with steel coupon.

Hardware

Standard nickel plated brass or optional stainless steel for guaranteed long service life. Up to 31 terminals accessible from both sides of the board.

Accessories

All Fat Fink® terminal boards can accommodate COTTShunts® Silde Resistors, COTTMeters® (Volt and Amp) COTT and Burndy connectors, bonding/shorting straps, lightning arrestors and flange mounting brackets. Optional locking top prevents tampering with any FinkPriobe instrument package.

Colors

Red, Orange, Yellow, Green, Blue, White and Black are standard on BigFink® and COTTPipe®.

Support Post

COTTPipe® PE (standard) polyethylene has over 20 years of proven durability. COTTPipe® PC (optional) polycarbonate is available for the toughest applications. Standard length 6 feet, available to 40 feet.

Sizes

Available in models to fit 6" (IPS) diameter pipe.

Anchor

COTTPipe® PE is easily installed and prevents pullout.
