

Portable spot welder is ideal to use for titanium tape anode cathodic protection systems in the field. This spot welder is light so that it is easy to handle without lifting the heavy power supply unit.

Specification

Capacity:	25/35/50 KVA
AC Voltage:	220V to 380V
Welding Time:	20 to 300 ms
Power:	Adjustable
Dimensions:	410 x 110 x 260 mm
Weight:	Approx. 5 kg
