

Titanium Power Feeder is designed for making the connection to titanium-based anode systems.

The cable connection is tightly sealed with special electrical epoxy to prevent any corrosion and to enhance the durability.

### Titanium Conductor Bar Dimensions

Width:	12.7 mm (1/2")
Thickness:	0.9 mm (0.035")
Length:	100 mm (4")

### Material Properties

Composition:	Titanium, Grade 1
Cable Connection:	Titanium, Grade 1
Insulation:	Epoxy and Heat Shrink Tube
Cable Type:	XLPE/PVC, XLPE/XLPE, HMWPE
Cable Size:	6 mm <sup>2</sup> and 10 mm <sup>2</sup>
Cable length:	Specified
