

PowerCleaner for Shrinkage Cracks

Portable

Quick Repairs

Natural Finish

PowerCleaner is the cement product containing self-healing compounds. The thin cracks appearing on the concrete surface can be readily repaired and achieve crack-free, beautiful and natural concrete finish.

It is so simple to use, just wet the cracks and rub by PowerCleaner.

Individual stick of PowerClenar is vacuum packaged. The color can match with that of the exist concrete. One stick can repair about 5 m, depending on the crack width.

PowerCleaner for Shrinkage Cracks
